The screenshot shows the ChessX application window titled "Moe-Kaasen-CCC2019 - ChessX". The interface includes a menu bar (File, Edit, View, Game, Find, Database, Scratch Pad, Help), a toolbar, and a Help window on the left. The Help window contains text about database operations, such as "Opening a database", "Sorting and filtering games", "Filter Databases into an opening tree", "Filter duplicate games", and "Merge complete databases".

The main area displays a chessboard with pieces. A blue arrow points to a black knight on square d7. The board is labeled with files a-h and ranks 1-8.

On the right, there is a "Databases" panel with a table listing databases:

| Favorite | Name       | Size | Open | Path           | Format | Date          |
|----------|------------|------|------|----------------|--------|---------------|
| ★        | FICS       | 0    | 📁    | C:/Users/ol... | ANSI   |               |
| ★        | Clipboard  | 0    | 📄    | Clipboard      | ANSI   |               |
| ★        | download   | 220k | 📁    | D:/Diverse/... | ANSI   | 20/05... 20/0 |
| ★        | Moe-Kaa... | 576  | 📁    | D:/Diverse...  | ANSI   | 01/06... 01/0 |

Below the databases list, there is a game list for "Moe, Moqens 2136 - Kaasen, Tor Fredrik 2398, 1-0". The game list shows the following moves:

```
